## Professional Services - Technical Consultant

[Apply Now](#)

Company: CHEQ

Location: United Kingdom

Category: other-general

CHEQ is the global leader in Go-to-Market Security, trusted by over 15,000 customers worldwide to protect every aspect of their marketing, sales, and data operation from bots, fake users, fraud, and cyber attacks. Powered by award-winning cybersecurity technology, CHEQ offers the broadest suite of solutions for securing the entire funnel, from paid marketing to on-site conversion, data, and analytics. CHEQ is a global company with offices in Tel Aviv, New York, London, and Tokyo.

**What you'll do:** As a CHEQ Technical Consultant in the Professional Services organization, you will be responsible for the technical aspects of our relationship with some of the largest companies in North America and Europe. You will be expected to architect, design, develop, and test solutions as defined by customer's daily tasks and strategic projects. As a member of the Professional Services team, you will be expected to collaborate across departments including Sales, Engineering, Customer Success, and Account Management to ensure maximum customer satisfaction and retention.

**Responsibilities:**

- Work with multiple customers on several implementation projects and provide ad-hoc support for bespoke solutions.
- Support customers remotely and on-site as the technical expert to provide guidance and best practices in adapting our technology to their processes.
- Architect, design, develop, and test solutions toward customer's daily tasks and strategic projects.
- Provide advanced technical support for customers with custom implementations.
- Be a technical expert not only in CHEQ products, but in all aspects of MarTec such as digital advertising, analytics, website design & security, and personalization.
- Create custom solutions that can be reused for other CHEQ customers.
- Write technical documentation for internal and external purposes.

**Desired skills**

and experience:● 2+ years of experience in MarTech solutions such as tag management, analytics, customer data platforms, and/or conversion optimization.● Experience in a tag management system such as Ensignten, Google Tag Manager, Adobe Launch, Tealium, etc.● Experience using an enterprise analytics tool such as Google Analytics or Adobe Analytics.● Proficient in JavaScript, HTML, CSS, and JSON.● Knowledgeable in website security features such as. Content-Security Policies (CSP), CORS, XSS, etc.● Ability to explain strategy and concepts to executives, technical teams, and other stakeholders.● Proven communication and presentation skills including.● History of translating business requirements into technical requirements and creating implementation guides. Nice to have:● Understanding of the MarTech landscape and how different SaaS tools are used to achieve different outcomes.● Fluent in German, Spanish, or French● Experience in a Professional Services or Sales Engineering team.● Expert JavaScript knowledge.● Experience dealing with Fortune 500 companies.● Experience with iOS and/or Android App development (Swift, Java, and/or React).● History of articulating and presenting information to both technical and non-technical audiences.● Be able to liaise with customer vendors and/or agencies to deliver projects.● Knowledge of BI and reporting tools (e.g. Tableau, Google Big Query, Looker, Looker studio, Google Data studio, Power BI, etc.). Benefits:● Experience working with the world's top global brands.● Fun and fast-paced working environment.● Flexible working arrangement.
