

Project Controls Engineer

[Apply Now](#)

Company: Tetra Tech

Location: United Kingdom

Category: business-and-financial-operations

We are recruiting for an experienced Project Controls Engineer to work within our Project Controls team on a series of government, defence, and nuclear sector projects.

About You:

You will be an experienced project controls engineer, who will undertake planning and scheduling functions, cost assurance and performance monitoring. This includes:

- Development and updating of programmes.
- Using the principles of DCMA to undertake integrity checks on supply chain and 3rd party programmes.
- Maintenance, control, analysis and recovery-plan activities, through all stages of the Project Life Cycle.
- Information Management and Performance Management Reporting

You will be capable of planning and scheduling major infrastructure, new build and refurbishment construction projects, including those with significant non-routine requirements. You should be proficient in developing programmes from "first principles" and be comfortable with the concepts of three-point estimates of time, the provision of time risk allowance and production of risk-adjusted programmes.

We are looking for an agile practitioner who can build relationships, communicate with and support the projects and programme teams, while bringing an innovative approach to problem solving and scheduling.

You should have experience of using all industry-standard planning software, including Primavera P6, Microsoft Project and Asta Powerproject. Experience of Quantitative Schedule Risk Analysis (QSRA) would be an advantage. We can provide training in the tools we use to produce Monte Carlo simulations, such as Primavera Risk Analysis, Predict! and risk Hive Arrisca.

You must be able to obtain Security Clearance.

Tetra Tech is a leading provider of high-end consulting and engineering services for projects worldwide.

We combine the resources of a global, multibillion dollar company with local, client-focused delivery in more than 400 locations around the world. We are Leading with Science® to provide sustainable and resilient solutions for our clients.

At Tetra Tech, we provide a collaborative environment that supports individual performance, innovation, and creativity. We are proud to offer competitive compensation and benefits. Learn more by visiting <http://www.tetratecheurope.com/careers>

For more information on our company, please visit our website at www.tetratecheurope.com . To apply, please submit your resume and cover letter on the Careers portion of our website at Tetra Tech Europe Careers - Jobs (selectminds.com)

We thank all applicants for their interest; however only those selected for an interview will be contacted. Tetra Tech is committed to creating a diverse environment and is proud to be an Equal Opportunity Employer. We invite resumes from all interested parties including women, minorities, veterans and persons with disabilities.

We are very happy to discuss flexible working, including the possibility of reduced hours, flexible start and finish times, or compressed hours. We can offer a range of solutions to help you to get the most out of your work / life balance.
