Company: Science Solutions Recruitment

Location: Cheshire

Category: other-general

A well established Bioanalytical CRO are now looking for a Project Leader to join their company on a full time, permanent basis. KEY RESPONSIBILITIES FOR THE PROJECT LEADER ROLE: Understand client requirements and timescales, liaising with Business Development Executives in the production of quotes as required. Develop and manage effective communication with clients for assigned studies. Review of client documentation such as study protocols, lab manuals, data transfer agreements. Preparation of bioanalytical study or study phase plans and other documents. Regular communication with scientific staff performing analysis for assigned studies, managing their workload and planning tasks they should perform on a daily basis. Review and sign off study data. Responsible for scientific integrity and regulatory compliance of assigned studies. Ensure the data and laboratory processes are in accordance with GLP/GCP and good documentation practice. Responding to QA audits and involvement in client audits. WHAT ARE THEY LOOKING FOR? Experience working in a regulatory bioanalytical laboratory with experience in a GLP laboratory. A degree in life sciences or chemistry related subject. Hands on experience of using LC-MS/MS, Sciex and Waters LC-MS/MS systems an advantage. If you are interested in applying to the Project Leader position, then apply to this advert with an up to date copy of your CV in word format (no more than 2 pages).
