Category: other-general

Job Title : Project Manager

Project Opportunity : Major treatment plant in Singapore

Consultant's Role : Owner's Engineer for Study, Detailed Design, Construction Supervision

PM role : Oversee and direct the entire consultancy services team

PM role duration : Initial 2-year contract, extendable

Job Description

This is a full-time role, primarily a leadership role involved in all aspects of the waste treatment plant design and construction. The role entails providing leadership and direction to the whole consultancy team. The PM will be the main client facing person and is expected to liaise and make presentations to other government authorities and stakeholders.

The consultancy scope includes, but not limited to, feasibility study, preliminary design, detailed design, procurement advice, construction supervision and commissioning management). The individual is expected to manage the overall project progress and budget, foster good working relationship with the client, regularly inform the management board on project performance, meet KPIs assigned by the management board & etc.

Requirements

The individual shall be:-

a Professional Engineer/Chartered Engineer registered in his/her country of practice

with at least 10-15 years of relevant engineering experience in similar size and complex projects

It will be added advantage if the individual has:-

Undertaken similar role in the last 7 years

Good project and programme management skills

Excellent written and oral communication

Excellent interpersonal skills
