

Python Developer

[Apply Now](#)

Company: Opus Recruitment Solutions

Location: United Kingdom

Category: other-general

Job Title: Full Stack Developer Location: Remote within the UK Salary: up to £70,000 Tech: Python, Django, JavaScript, React, Docker

Are you a talented Python/Django Developer looking for a remote UK based role? I'm working with a company in Bracknell who are working alongside some of the UK's biggest companies, building solutions tailored to their customers needs. They are on the lookout for a skilled Full Stack Developer to join the ranks and contribute to the creation of top-notch software solutions. In this role, you will:

- Lead the charge in the entire software development cycle, covering everything from requirements analysis to testing.
- Craft functional designs and specifications and present them for internal or customer approval.
- Tackle complex challenges head-on.
- Display meticulous attention to detail, ensuring the production of high-quality software with clean code.
- Design and maintain high-performance networked software solutions.

What is required from you:

- Skilled developing within Python and a solid grasp of the Django framework.
- Proficiency in JavaScript and ideally React (Vue or Angular is also fine)
- A minimum of 3 years' experience in a role developing in Python and Django
- Familiarity with Docker and containerization technologies.
- Strong understanding of database technologies including PostgreSQL and Redis.

In return for the Full Stack Developer role you'll get a salary of up to £70K, the option of fully remote working, generous pension, flexible working, TechScheme, L&D opportunities and more!
