Company: TRIA

Location: Greater Bristol Area

Category: other-general

QA Engineer Up to £45,000 + benefits Permanent Opportunity Hybrid - Central Bristol My client is a small but fast-growing company specialising in offering bespoke software solutions to clients across industries. They are now looking to add a credible mid-level QA Engineer to join the team! Joining as the first QA Engineer within the business you will work closely with the development teams and senior stakeholders to ensure gold-standard QA processes are implemented and testing is carried out efficiently in a standardised manner across the organisation. Requirements: 1-3 years of QA experience. Strong understanding of testing methodologies. Familiarity with Agile methodologies. Excellent communication skills. Previous exposure to Microsoft stack preferred. The ideal candidate will be someone who has experience in manual testing with a keen appetite for progression in test automation. With the support of senior members of the team, you will get the chance to work closely with leadership and clients across multiple projects to ensure that strict methodologies and testing of the highest standard are being carried out. If you are looking to join a small but innovative and fast-growing organisation offering strong career progression and growth opportunities then this opportunity is for you. Please apply directly below or email your CV to rachel.jones@triarecruitment.com
