Company: Olive Jar Digital

Location: United Kingdom

Category: computer-and-mathematical

Permanent, Full-time UK-wide SC Clearance essential

About the role As a member of our technical delivery team you will collaborate closely with multidisciplinary teams to architect and deliver cutting-edge digital solutions tailored to our clients' unique needs. With a focus on excellence and a passion for pushing boundaries, you will contribute to Olive Jar Digital's mission of catalysing transformative change in the digital landscape.

About Olive Jar Digital As we grow, we empower our teams to develop their roles and functions and offer support to get you from where you are now, to where you want to be. Moving towards our 9th year, we are now an established brand, building digital products and services and championing the provision of expert talent to enhance customer and in-house teams, satisfying all user needs. We are a professional, fun, fully Inclusive and diverse digital consultancy, valuing everyone's opinion. With a huge growth plan over the next two years, we are looking to expand our client facing delivery team with designers, developers, and testers as we continue to expand our project portfolio.

Responsibilities Define individual application migration test plans and scripts based on project requirements and specifications. Execute tests according to defined test plans and scripts, ensuring thorough coverage of all aspects of the application. Document test outcomes, including any defects or issues encountered during testing, and collaborate with the development team to identify and implement remediation actions. Conduct regression testing to ensure that previously identified issues have been resolved and do not reoccur. Collaborate closely with project managers, developers, and other stakeholders to ensure that testing activities align with project timelines and objectives. Participate in project meetings and provide regular updates on testing progress and any

identified risks or issues. Stay up-to-date with industry best practices and emerging trends in quality assurance testing, and contribute to the continuous improvement of testing processes and methodologies. About you Minimum of 5 years of experience in quality assurance testing, preferably in a public sector environment. Solid understanding of software testing principles, methodologies, and best practices. Experience in writing test plans, test scripts, and test cases. Excellent communication skills, with the ability to effectively communicate technical information to both technical and non-technical stakeholders. Strong problem-solving skills and attention to detail. Ability to work independently as well as part of a team in a fast-paced environment. You have demonstrable experience of successfully contributing to the delivery of Digital products and projects in the Public Sector using GDS. Benefits 25 Days Annual Leave per annum (plus 8 Bank Holidays as standard) Westfield Health Scheme Pension Scheme Staff Team Building Days and Social Events Statutory Sick Pay Statutory Maternity, Paternity and Adoption Pay Discretionary Annual Bonus Scheme Personal Development Programme Annual Salary Review Electric Car Scheme Enhanced Benefits Available for Long-Service Powered by JazzHR
