Quality Engineer

Milton Keynes

£45,000-50,000 DOE plus bonuses

An exciting opportunity has arisen for a experienced quality Engineer to join my clients growing friendly team at. The role is based at a state-of-the-art

The Quality Engineer will manage and develop internal and external (vendors) manufacturing processes throughout the supply chain to ensure that they consistently produce quality product, without unnecessary wastes / cost. They will lead and develop effective Quality control and assurance systems and procedures to the business (external supply, internal manufacture, customer finished product), and lead, promote and drive a no-fault forward attitude and culture.

Main Tasks of the Role:

Responsible for Supplier Quality Assurance, of allocated supplier commodities.

Manage external suppliers

Lead and perform new supplier quality audits and supplier development / continuous improvement activities.

Lead and manage the evaluation of Root Causes through proven problem-solving methods

Lead the integration of New Products through the deployment of APQP (Advanced Product Quality Planning)

Where applicable, to lead and maintain process control measurement systems

Liaison with Customer Support, to support in leading and facilitating the containment of Customer Feedback (CFB) issues and warranty issues raised.

Qualifications and Experience:

Proven experience in competently managing and guiding Quality Engineers and Quality technicians.

Experience in manufacturing practices; Electrical systems, Hydraulic systems, Welding, CNC Machining, Fitting, Assembly, and Finishing Processes

Degree level in Mechanical Engineering or applicable experience

Ability to read and interpret engineering drawings

Computer literate – with a working knowledge of Microsoft Word, Excel, PowerPoint. Access and Project desirable but not essential.

Working knowledge of Quality Management Systems (ISO 9001:2015)

Working knowledge of PPAP/APQP tools and methods.

Experience with D.F.M.E.A. and P.F.M.E.A. (desirable but not essential)

Working knowledge of LEAN principles

Benefits:

25 days annual leave + bank holiday (holiday entitlement increases with service)

Annual bonus (on average £500 per annum)

5% Contributory Pension scheme

Healthcare Scheme

Death in Service Life Insurance Scheme

Free Company Lunches

Free Company Family Days

Cycle to Work Scheme

Referral Scheme

This is a full time permanent Quality Engineer position, with a 40 hour working week, offering an annual salary of up to £50,000 or higher if at a management level plus annual company benefits to include a 25 days holiday plus 8 bank holidays, pension scheme, annual bonus of £500, free company lunches, free family events and free car parking.
