Are you looking for a role that will help you to develop your career in the engineering industry? Do you have a strong attention to detail and the ability to inspect products to the highest standard? If so, you may be the perfect fit for this Quality Inspector role.

Located in Norwich, this role is to work four and a half days a week in a fast-paced manufacturing engineering environment. We are looking for a Quality Inspector who will be responsible for inspecting products and ensuring all are of the highest quality.

The successful candidate will have strong practical skills and a good eye for detail. You will have a good understanding of engineering principles and be able to read and interpret engineering drawings. You will also be competent in the use of measuring equipment and be able to identify faults with components.

Your duties will include inspecting components and assemblies for quality, using a variety of measuring tools. You will be responsible for raising non-conforming products and ensuring that all products meet the relevant quality standards. You will also be required to produce inspection reports and records, and complete any other duties as required.

To be successful in this position, you will need to have experience of working within a manufacturing engineering environment. You will need to be competent in the use of measuring equipment, and be able to read and interpret engineering drawings. You will need to

have strong quality control experience and be able to identify any faults with components.

In return, you will receive a competitive salary and the opportunity to develop your career further in the engineering industry. You will be part of a supportive and friendly team, and will be able to work in a secure and safe working environment.

If you think this Quality Inspector role is right for you, please submit your CV or contact Lewis Woollard direct on 01603 415 100.

We look forward to hearing from you.
