Salary: £25k to £35k basic + Excellent benefits

Exciting Opportunity for 2024 R&D Technician in Leicester!

Are you ready to dive into the world of cutting-edge technology and be a crucial part of an innovative R&D team? I have a fantastic full-time, on-site position available in Leicester, with a large electronic OEM business, for a skilled and dynamic R&D Technician.

About the Role: As an R&D Technician, you'll be at the heart of our dynamic team, contributing to a diverse range of prototyping and testing activities. If you're a wizard with electrical systems and mechanical assemblies, this is the role for you! Your responsibilities will include PCB hand soldering, cable assembly, visual inspection, and fault-finding – all while working with state-of-the-art technology.

Key Skills - R&D Technician:

- Expert PCB hand soldering skills.
- Proficient in cable assembly, soldering, crimping, and termination.
- Visual inspection and fault-finding expertise for both electrical and mechanical assemblies.
- Ability to follow test plans and accurately record results.

### Key Duties - R&D Technician:

- Support R&D projects in parts selection and procurement.
- Construct mechanical and electrical assemblies.
- Build prototype cable assemblies and PCBs.
- Evaluate prototypes against test plans.
- Undertake prototype repair, rework, and upgrades.
- Provide support to other departments as needed.

This role is perfect for someone who thrives in a fast-paced team environment, juggling multiple projects with ease. This company invests in your professional development. You'll receive training in technical principles, R&D best practices, and get the opportunity to master software packages like SolidWorks and Altium Designer.

If you're ready to take your career to the next level and be part of an exciting journey in R&D, apply now! If you have any specific questions about this R&D Technician role, please call David on 01582 350052. To apply email: [dphilpott@versorecruitment.com](mailto:dphilpott@versorecruitment.com)
