

Regulatory Reporting Specialist (Regional Digital bank)

[Apply Now](#)

Company: Empirical Search

Location: United Kingdom

Category: business-and-financial-operations

Role Description

You will lead the production of regulatory reports and data submitted to the regulators, managing the full suite of regulatory returns in line with the requirement of the firm's regulators including COREP, FINREP and Bank of England returns, whilst keeping pace with and maintaining knowledge of the fast changing regulatory requirements within the sector.

Role Requirements

Demonstrable experience in COREP, FINREP and Bank of England returns

Preference for a strength in regulatory capital knowledge

Ability to contribute to the development of new products, including new data requirements, leading system implementations, liquidity & capital requirements and ensuring the correct reporting both internally and externally

Sound understanding of the banking market, with a preference for retail banking expertise

Ability to partner with key stakeholders across the business to ensure the successful delivery of wider projects
