

Research Fellow - College of Medical and Dental Sciences - 103681 - Grade 8

[Apply Now](#)

Company: University of Birmingham

Location: United Kingdom

Category: life-physical-and-social-science

Summary

Initiate and conduct original research which has measurable outcomes and is reflected in a growing national and often incipient international reputation

Plan, design and co-ordinate research activities and programmes

Contribute to the development of research strategies

Contribute to publishing high quality outputs from the programme of research and own research

Supervise PhD, MSc and UG students.

Contribute to undergraduate and post-graduate taught programmes

Contribute to the Department/School through management/leadership

Develop and make substantial contributions to knowledge transfer, enterprise, business engagement, public engagement activities, widening participation, schools outreach or similar activities at Department/School level or further within the University

Main Duties

To plan and carry out research, using appropriate methodology and methods. This may include, where appropriate to the discipline:

Lead qualitative and multi method research as part of the CRUK funded GUIDE-DTCT

Study

Identify, recruit and consent research participants

Conduct literature searching and reviewing

Collect, analyse and interpret qualitative and multi method data using appropriate methods

Pursue personal research including developing research ideas and winning support, including financial support

Plan, publish and/or execute high quality research

Project manage research activities, and/or supervise other research staff

Present high quality findings in publications and conference proceedings

Develop novel methodologies and techniques appropriate to the type of research being pursued

Supervise PhD students, both within and out with the University

Provide expert advice to colleagues and students within discipline

Contribute to the administration/management of research across the Department/School

Develop and make substantial contributions to knowledge transfer, enterprise, business engagement, and public engagement activities of manifest benefit to the research team, Department, College and the University

Contribute to some administrative activities within the University, typically relating to research

Apply knowledge in a way that develops new intellectual understanding *

Actively manages equality, diversity and inclusion through monitoring and evaluation and actively challenging unacceptable behaviour

* This indicative responsibility may also be included in a research role at a lower grade.

Person Specification

A relevant first degree and normally, a higher degree (normally PhD) or equivalent

qualifications (or near completion to) in a health related subject, sociology, psychology, or equivalent discipline

Experience of undertaking and timely completion of qualitative and multi method research, preferably in the area of medical test evaluation

Ability to communicate complex information clearly both orally and in written form

Experience of working in a multi-disciplinary team

Experience of engaging with a wide range of stakeholders including the public

Knowledge of ethical and research governance in health-related research

Experience of participant recruitment and taking informed consent

Experience and achievement reflected in peer reviewed publications including a growing reputation

Extensive experience and demonstrated success in planning, undertaking and project managing research to deliver high quality results

Extensive experience of applying and/or developing and devising successful models, techniques and methods

Extensive experience and achievement in knowledge transfer, enterprise and similar activity

Experience of championing Equality, Diversity and Inclusion in own work area

Ability to monitor and evaluate the extent to which equality and diversity legislation, policies, and procedures are applied

Ability to identify issues with the potential to impact on protected groups and take appropriate action
