Category: architecture-and-engineering

Revit Designer - Sprinkler Design Training Specialist

Salary/Package - £55,000 - £60,000 Basic + Benefits Package

Location - Basingstoke

Permanent Position

Our client is a leading sprinkler contractor based in the south of the UK who are looking for a Revit specialist to join their business. They specialise in designing and implementing state-of-the-art fire sprinkler systems to the residential and commercial sectors.

As a proficient user in Revit you will play a pivotal role in training their team of sprinkler designers in utilising 3D Revit software for designing sprinkler systems. You will be responsible for developing and delivering comprehensive training to enhance the proficiency of their design engineers in creating accurate and efficient sprinkler system designs using Revit. Additionally, you will collaborate closely with their design team to provide ongoing support and guidance, ensuring the successful integration of Revit into their design processes.

Key Responsibilities:

Develop and implement training to educate sprinkler designers on the fundamentals of 3D Revit software.

Conduct hands-on training sessions and workshops to facilitate learning and skill development in Revit.

Provide individualised coaching and support to designers, addressing their questions, challenges, and technical issues related to Revit.

Collaborate with the design team to identify opportunities for optimising sprinkler system designs through the use of Revit.

Stay updated on the latest developments and best practices in Revit software and sprinkler system design techniques. Qualifications:

Proficiency in Autodesk Revit software with experience in 3D modeling and design.

Excellent communication and presentation skills, with the ability to effectively convey complex technical concepts.

Ability to work collaboratively in a team environment and provide mentorship and support to colleagues.

Highly organised with strong attention to detail and problem-solving skills. If you do not have sprinkler design experience this is NOT an issue.

If you are interested to know more and be considered for this position then please forward your CV on accordingly.

Please note Alecto Recruitment is acting as an employment business in relation to this position.
