

Safety & Risk Consultant[844084]

[Apply Now](#)

Company: Binnies

Location: United Kingdom

Category: architecture-and-engineering

Provision of principal designer role, CDM advisor and health & safety consultancy professional services to both internal and external clients. Further to this it is foreseeable that there will be the opportunity to deliver health & safety training, undertake audits and risk studies.

Key responsibilities:

To discharge the duties of the principal designer or the CDM advisor role on a wide variety of projects across the Southeast Region

Provide technical guidance to site based and/or office-based staff and less experienced colleagues

Visit sites to assess existing site hazards, working closely with clients to ensure information passed onto design and construction teams

Maintain client relationship on a day-to-day basis, championing client's safety programmes and set an example on behaviour, produce statutory documentation e.g. pre-construction information and health & safety file, alongside the appraisal of contractor's documentation

Attend design/progress meetings and undertaking site audits/inspections during the construction phase and the potential to chair buildability meetings, plus hazard meetings e.g. HAZCON's or HAZOP's.

Essential experience:

Relevant Degree/ NEBOSH Diploma (or equivalent)

CMaPS & CMIOSH

Worked on civil engineering construction projects in a health & safety consultancy role

Working knowledge of Construction (Design & Management) Regulations 2015

Driving license

Good communication skills, trustworthy, team player

Desirable

CPD regularly updated, experience in health & safety training

Environmental awareness qualification

Site experience and understanding of design ideally within a flood, coastal & maritime environment

Large project start up experience
