SAP Securities & Authorisation Consultant

NTT DATA Business Solutions -

NTT DATA Business Solutions Group is part of the NTT DATA Corporate Group a top global IT services provider, headquartered in Tokyo, operating in more than countries.

We combine a global reach with local intimacy to provide premier professional SAP services from deep industry expertise consulting to applied innovations in digital, cloud, automation, and system development to business IT outsourcing.

As a global SAP Platinum Partner, NTT DATA Business Solutions Group leverages its global expertise to deliver quality outcomes whether you are a multi-national or operate in a single country. With over , SAP experts across countries, we have the capability and reach to help you solve real problems and seize the next opportunity for growth around your SAP strategy and operations.

Our global award winning SAP practice, differentiated by innovation is the undisputed leader in SAP S/4HANA. With about SAP HANA clients and more than SAP S/4HANA clients. Our clients trust our deep experience and proven approaches - all around the world.

Our SAP Application Security team sits within the Value Acceleration Practice, one of the fastest growing practices in NTT DATA Business Solutions AG (NDBS). In combination with our global leading SAP practice, we offer career growth & learning opportunities. You will also get the opportunity to help us develop our market offering and the potential to work closely with a variety of clients.

How You Can Make An Impact

You will support the creation, implementation and continuous development of complex SAP authorization concepts and realise these together with an international and interdisciplinary team.

You will advise our customers on the redesign and transformation of their existing security architecture and develop SAP security strategies together with them.

You will design and implement modern and innovative security architecture solutions based on SAP technologies (SAP Cloud and SAP S/4), which can also be part of hybrid architectures.

You will analyse security and compliance gaps in SAP environments and develop solutions.

You will support the implementation and use of Governance, Risk and Compliance (GRC solutions) in the customer's IT infrastructure

You will help our clients to ensure that international standards and internal specifications for the implementation of data protection (GDPR) and compliance regulations are met.

Who We Are Looking For

You will have 6+ years of project and consulting experience in the areas of SAP Security architecture, the development of security concepts and their implementation, primarily with SAP S/4HANA, SAP S/4HANA Cloud, SAP Business Transformation Platform, and SAP ECC.

You have a degree in IT security, computer science, business informatics or comparable training.

You have experience of ECC to S/4 HANA conversion and S/4 HANA upgrade projects.

You like to take the initiative, are reliable, independent and be detail oriented.

You are completely fluent in English.

Benefits

NDBS offers a very competitive salary and benefits package including:

A competitive group pension plan and life insurance

One free Friday per calendar month over and above the usual holiday allocation

"work where it works" policy for the UK

Opportunity to work abroad for a number of set days per year

Opportunities for professional development and training

Private medical insurance

Cycle scheme, electric car scheme

Dynamic and collaborative work environment

GENERAL

This is a project consulting role and will require travel to client sites

Career opportunities exist along multiple route maps from people and leadership, products and expertise and project management. Which route you take is up to you and we are on hand to provide guidance and support. Join us to start the journey that is your career path.

You will be expected to follow relevant policies, procedures and work instructions, and report to the appropriate superior if objectives cannot be met or a problem occurs, the resolution of which is outside the scope of his/her authority.

The jobholder is empowered with the necessary authority to make decisions appropriate to the execution of the responsibilities and tasks outlined. The above Job Description does not limit the employee in executing his job in concurrence with his main area of responsibility or other relevant jobs that they may be required to do.

NTT DATA is an equal opportunities employer. Please advise us should you require special arrangements for the interview process.

You must be eligible to work in the UK and prepared to undergo high level security clearance

We encourage you to consider becoming a part of our dynamic and innovative organization. Thank you for your interest, and we look forward to hearing from you soon! We transform. SAP® solutions into Value
