

SAP security - MM

[Apply Now](#)

Company: RED SAP Solutions

Location: United Kingdom

Category: other-general

Role: **SAP Securities and Authorisations with MM**

Duration : 3 months with the possibility of an extension.

Location: Remote

For our international client who is urgently looking for a SAP Securities consultant. can be located anywhere as long as he English level is good) doing the first step.

This first test consist of SAP security roles extract in one legacy and compare them with an extract in the target SAP environment, the person will have thus SAP Authorization/Roles experience and possibly a good advice level as well.

End purpose is to make sure people have enough but not too much auth. In the new SAP environment.

That person would report to our Business Process Owner Master Data and it would be the first priority of the work he does.

On top of this, there are multiple tasks to be done. Second priority being a archiving project where SAP MM experience would be used. We also have the basic MM setup to be done for one of our plant (French speaking plant).

There is from time to time SAP SRM support.

MM and SRM will be tickets and Support

French will be a nice to have to workshops - remote with limited very ocasional travel maybe

once

Thus someone having a SAP Security background combined with Some SAP MM experience would be nice.
