Company: Bolttech

Location: United Kingdom

Category: business-and-financial-operations

Job Description

About us

boltttech is an international insurtech with a mission to build the world's leading, technology-enabled ecosystem for protection and insurance. With a full suite of digital and data-driven capabilities, boltttech powers connections between insurers, distributors, and customers to make it easier and more efficient to buy and sell insurance and protection products. A part of Pacific Century Group, boltttech serves customers in multiple markets across North America, Asia and Europe.

In this position you will...

...be part of a small Finance anchored optimization team, supporting the broader Finance team together with support for all Commercial Finance initiatives. These may include but aren't limited to support for strategic initiatives such as fund raising (equity and debt), financial aspects of M&A, optimization of group structure including capital.

You will be responsible for...

Supporting the Head of Commercial Finance and the Group CFO in driving value in all areas and all opportunities reacting to optimization of capital, cash, liquidity and all value-driven opportunities

Adding value across the business through project-based work in collaboration with the senior leadership team and multiple departments

Working across a broad portfolio of businesses with different profiles and needs

Preparing analyses, recommendations and presentations together with key stakeholders across finance, strategy & investments and operations

Ownership of finance driven, strategic and operational tasks and be actively involved in driving growth and scaling the business

Learning quickly, develop key relationships, adapt and work hard to regularly deliver high quality output, under pressure

Taking a proactive approach to problem solving to drive innovation across the business

Supporting competitor analysis, benchmarking for different opportunities and problem solving

Performing financial analyses and assisting in valuation exercises

Participating in M&A financial due diligence sessions and producing analyses

Assisting in the preparation of recurring business reviews and project status reports to management and key stakeholders

For you to be successful...

...we expect you to be able to demonstrate the following key competencies:

Impactful

Proactive in identifying what needs to be done, and acting, before the situation escalates

Evaluating data and making decisions, including differing stakeholder perspectives, in an efficient and timely manner

Focused on objectives and identifying activities and key results required to meet them

Collaborative

Partners with a range of people to create trust, and co-create and deliver mutually beneficial outcomes

Develops collaborative and dynamic working relationships to achieve the best possible outcomes

Adaptable

Looks to understand the bigger picture rationale for changes and adapts in a flexible and nimble manner

Flexible in successfully juggling multiple requirements, ambiguity and competing demands. Perseveres in challenging circumstances.

Communication

Keeps all relevant people accurately informed and up-to-date of both positive and potentially negative information

Concise in communicating and references relevant information tailored to the audience to support points

Effective and articulate communicator, actively and respectfully listening to and assimilating others' perspectives

You will require the following qualifications and skills

Candidate with 3+ year experience in business, economics, science or similar subject with strong analytical background

Some exposure to the insurance industry would be helpful; either underwriting, capital management or a financial analyst covering insurance

Prior relevant work experiences / internships in M&A, strategic analysis, structuring, capital optimization or finance in financial services, highly desirable

Confident, structured and an incredibly organised individual who can take ownership of tasks and work independently to ensure quality output and timely completion

Inquisitive with exceptional analytical skills and a strong desire to learn

A hands-on attitude and boundaryless mind-set, embracing the unique work style of a young and rapidly growing company

Strong communication skills and comfortable interacting with internal and external stakeholders

Ability to communicate effectively at the most senior levels of bolttech

Experienced with Excel and PowerPoint

ACA / CPA / CFA preferred
