Senior Architectural Technician Job in Leamington Spa, Midlands

We are now exclusively representing a job, based in Leamington Spa. This opportunity is with an industry-leading practice, in the heritage and conservation sectors. They are currently working on several high-profile projects both public and private.

This practice work on all manner of conservation from museums and galleries, to palaces and private estates and have attained an attractive portfolio leading to a prestigious reputation within the sector. The firm supports personal and professional development of its employees and will be happy to discuss your development and progression within the practice.

Role & Responsibilities

Manage and coordinate design teams on projects

Coordinate client and stakeholder meetings answering any questions as they come up

Work alongside existing team and senior staff to meet deadlines

Demonstrate your strong technical and design skills

Working on a project from conception to completion

You will be required to carry out site visits, regular travel is to be expected within this role

Communicate regularly and report to the directors.

Required Skills & Experience

10 years of industry experience, ideally working with traditional buildings and techniques (however conservation experience is not essential for this role)

A degree, HND or HNC as an Architectural Technologist

Previous experience working on historic building conservation is highly desirable

Strong verbal and written communication skills

Experience working across all RIBA stages and administration of historic building contracts

A Knowledge of Microsoft Office is required and InDesign is desirable

Proficient in Vectorworks and AutoCAD.

What you get back

£37,500 – £47,500

Entry into stakeholder pension scheme

25 days holiday + bank holidays

All professional memberships are paid for in full and CPDs provided

Hybrid working negotiable
