

Senior Business Intelligence Consultant

[Apply Now](#)

Company: Carrot Recruitment

Location: United Kingdom

Category: computer-and-mathematical

The Role

As part of my client's ambition to provide further insight services, they are looking to hire a Senior Business Intelligence consultant to form a new team within the consulting division.

You will be involved in:

Developing and leveraging internal insights to enable stakeholders to support their clients in making critical decisions

Setting up and developing knowledge management insights and processes

Streamline access to internal business intelligence to improve project efficiencies

Developing market and competitive intelligence across the wider consulting function

Utilising various secondary data sources to plug intelligence gaps

You

In order to be successful in this position, you will have the following skills and experience:

A strong business intelligence background within the pharma/healthcare space

An understanding of different data sources and what they offer

The ability to work collaboratively as part of a multifunctional team, to provide consultative solutions

An understanding of how insights and research feeds into communications and medical

strategy

Excellent communication skills – you will be working with a variety of stakeholders so confidence and the ability to influence is essential
