Senior Data Engineer - 12 month FTC

Apply Now

Company: Davies Group

Location: United Kingdom

Category: computer-and-mathematical

The Senior Data Engineer we are looking for is highly experienced in their field and should have an excellent working knowledge of SSRS, SSIS and SSAS in a SQL Server 2008 R2 & onwards environment.

They will be responsible for the design, development and delivery of full data solutions using the Microsoft BI stack. They must have strong T-SQL skills in creating SSRS reports and using data visualisation tools such as Power BI. They will also hold experience of developing and maintaining Data Warehouses.

As the senior Data Engineer, you will have gained experience in a variety of different tools and implementations and can make informed choices and influencing key project decision making. You must have extensive experience of working within a team and be able to demonstrate an aptitude to teach and mentor colleagues to a satisfactory level of understanding as well as leading by example and being a role model to more junior members of the team.

What will your day look like:

Lead the design and development of data solutions across the company.

Drive delivery and maintenance of performance dashboards to operational teams to ensure business access to essential data.

Drive delivery and maintenance of SSRS reports to ensure business access to essential MI/BI.

Lead in the design and development of innovative solutions using Power BI.

Define, update, and adhere to software development patterns and standards.

Provide technical assistance, support, and development skills across the company.

Liaise with 3rd party software providers throughout the lifecycle – including design, development, support, and maintenance, ensuring best practise.

Mentor and coach less experienced MI/BI colleagues.

Lead by example, being a role model to more junior members of the team.

Abilities And Knowledge:

Highly numerate with previous experience in delivering BI reporting solutions.

Expert T-SQL skills are essential.

Strong understanding of data warehousing, ETL and database concepts.

Strong experience of Microsoft BI technologies.

Experience in delivering complex reporting solutions.

Technologies:

Essential:

Microsoft stack

SQL Server

SSIS

SSRS

Power BI

TFS/Visual Studio

A framework based upon the SFIA is applicable to this role and provides levelling for:

Junior BI Developer

BI Developer

Senior BI Developer

Required Soft Skills:

Be self-motivated with a strong work ethic that can work with limited supervision.

Can adapt to a rapidly changing environment, ability to think 'on their feet' and learn quickly.

Have excellent communication and interpersonal skills, calm under pressure & sound judgement in complex situations.

Be co-operative, collaborative, and work toward common goal with others.

Be open and inclusive approach, willing and able to interact internally and externally and at all levels within the company.

Have excellent verbal and written communication skills with the ability to articulate complex ideas in a clear and concise manner.

Can work under pressure and prioritise effectively, working on multiple tasks at the same time.

Be competent user of IT with good working knowledge of Microsoft packages and confident in embracing innovative technology.

Be organised, proactive and confident self-starter.

Show a highly committed attitude.

Be methodical and accurate, showing great attention to detail.

Demonstrate teamwork - Contributes actively to an environment in which colleagues work cooperatively with each other.

Demonstrate Agile – Experience of Agile Scrum methodology.

Have good analytical skills, be methodical and accurate and show great attention to detail.

Can build relationships at all stakeholder levels including business and IT staff, vendors, and third-party service providers.

Be a good problem solver with proven ability to diagnose and resolve issues.

Have exceptional prioritisation and problem-solving skills.

Have leadership skills, the ability to lead by example and be a role model to others.

Communicates in clear and concise manner, both written and verbal.
