Senior GCP Data Engineer - Remote (UK) - Permanent Financial Services - Regulation - Governance - GCP - Graph Databases £85,000-£95,000 salary\*\*\*Please note this role does not offer sponsorship, and you must be based in London to apply\*\*\*I'm currently partnered up with a massively successful RegTech company operating in the financial services space - driving forward the standards of regulatory intelligence across the sector. They work as a SaaS-based company, building regulatory tools to streamline change management and ensure seamless compliance in the industry. As they continue to grow in 2024, they're now on the lookout for a Senior/Lead Data Engineer centered in GCP to join their team. Specifically, they want somebody to join the team who is an expert with GCP, from Engineering, to Architecture, Governance, and Cleansing to help define their data function. Essentials: 5+ years as a Data Engineer using GCP. Experience working with both graph databases and relational databases (e.g. Neo4j) Good understanding/interest in Data Governance and Financial Regulation. Expert ability with BigQuery, DataFlow, Pub/Sub, Composer, etc. Experience mentoring/upskilling other team members. A proactive data engineer who can take their function to the next level! If you think this opportunity could be of interest and fits your skill-set, please apply below and I'll be in touch!
