

Senior Data Scientist - Remote (UK Only)

Apply Now

Company: Nasstar

Location: St Albans

Category: computer-and-mathematical

We are Colibri Digital (part of the Nasstar Group).

Job Title: Senior Data Scientist | Generative AI & LLMs

Location: Must reside in the United Kingdom and will be 100% remote

Job Type: Permanent

Salary: Competitive plus bonus

Born in the cloud, **Colibri Digital** is one of the fastest-growing Cloud Consultancies in the UK and with deep expertise in areas such as big data, data science, machine learning, and cloud computing. We are Select partners with AWS and our recent attainment of Gold competency with Microsoft proves our excellence in evolving cloud and data technologies. Colibri Digital is at the forefront of leveraging AI technologies to solve real-world problems. With a focus on innovation and excellence, we are dedicated to developing cutting-edge solutions that drive progress and efficiency. Our team of experts is growing, and we are seeking a talented Senior Data Scientist with a specialization in Natural Language Processing, Large Language Models, and Generative AI to join our dynamic team.

Job Description:

As a Senior Data Scientist focused on Generative AI, you will play a crucial role in designing, developing, and deploying advanced generative AI applications. You will work closely with a multidisciplinary team of data scientists, engineers, and product managers to solve complex problems and deliver AI-powered products and services.

Responsibilities:

Develop and build applications with state-of-the-art generative models, including GPT-4, Lamma 2, Mistral, and transformer-based architectures.

Apply your engineering skills to write efficient, scalable, and clean code, primarily in Python, to build and refine machine learning models and data processing pipelines.

Collaborate with stakeholders to understand business requirements and identify opportunities where generative AI can provide value.

Stay abreast of the latest advancements in AI and machine learning, particularly in the field of generative models, and propose innovative solutions to enhance our AI capabilities.

Work with data science and engineering teams to ensure the scalability and efficiency of AI models, from data pre-processing to deployment, utilizing tools and technologies such as Docker, Kubernetes, and cloud services for model hosting and scaling.

Mentor junior data scientists and contribute to the team's knowledge sharing by leading workshops and seminars on generative AI technologies and engineering best practices.

Qualifications:

Master's or PhD in Computer Science, Mathematics, Statistics, or a related field, with a focus on AI/ML.

Minimum of 4 years of experience in data science or machine learning, with some experience with generative AI models.

Proficiency in programming languages such as Python and libraries/frameworks like TensorFlow, PyTorch, Keras, etc., with strong engineering skills to implement, optimize, and scale AI models and data processing workflows.

Strong understanding of machine learning principles, deep learning, and statistical modeling.

Excellent problem-solving skills and the ability to work in a fast-paced, dynamic environment.

Strong communication skills, with the ability to explain complex technical concepts to

non-technical stakeholders.

What We Offer:

Remote Working: Flexible options to support your best work from anywhere.

Competitive Salary and Benefits Package.

Opportunity to Work on Cutting-Edge AI Projects: Engage with innovative technologies and make a significant impact in the field.

A Collaborative, Inclusive, and Dynamic Work Environment: Be part of a culture that values diversity, collaboration, and continuous improvement.

Top tech including a New MacBook Pro.

Equal Opportunities:

Our ultimate goal is to create an environment where diversity is not only welcomed but celebrated, where every employee feels a sense of belonging, and where our collective differences drive our collective success.

By embracing diversity, practicing inclusion, and striving for equity, we aim to be a leader in our industry and a model for organizations worldwide.

Diversity is not just a statement; it's our way of life.

A note for agencies:

Colibri/Nasstar has an in-house recruitment team who work hard to successfully find the very best candidates. Therefore, we cannot accept agency submissions for any of our roles.
