

Senior Electrical Engineer

[Apply Now](#)

Company: Pertemps TM

Location: London

Category: architecture-and-engineering

Are you a skilled electrical engineer seeking a new opportunity in London's thriving building services sector? Our esteemed client, a leading building services engineering consultancy, is on the lookout for a dynamic Senior Electrical Engineer to join their team. With a competitive salary of up to £65,000 per annum and a hybrid working model (2 days remote per week), this is an opportunity become a key member of a talented team.

Position: Senior Electrical Engineer

Location: London

Salary: Up to £65,000 per annum

Work Arrangement: Hybrid (2 days from home per week)

Company overview:

An established consultancy at the forefront of building services design, specializing in residential and commercial projects throughout the UK and Europe. With a commitment to innovation and sustainability, they offer a stimulating work environment where talent thrives.

Engaging projects within a collaborative and forward-thinking environment.

Competitive salary package and flexible hybrid working arrangements.

Opportunities for professional growth and advancement within the consultancy.

Key Responsibilities:

Lead electrical design initiatives across diverse projects, serving as the primary liaison with external design teams.

Conduct comprehensive electrical load calculations and renewable energy assessments, ensuring alignment with sustainability goals.

Prepare detailed design packages encompassing sketches, drawings, specifications, and technical schedules.

Collaborate with equipment manufacturers and utility suppliers to validate technical selections and meet design specifications.

Ensure compliance with regulatory standards and guidelines, conducting site visits as needed to uphold design integrity.

Requirements:

Minimum 4 years' experience in building services electrical engineering.

Bachelor's degree in Electrical Engineering, Building Services Engineering, or a related field.

Proficiency in software tools such as IES, AutoCAD, and REVIT.

Proven track record of effectively managing junior engineers and delegating tasks.

Strong grasp of environmental design, sustainability principles, and building regulations.

Excellent communication, interpersonal, and organizational skills.

Desired Skills:

Experience serving as the primary point of contact for external design teams.

Demonstrated proficiency in project management and business development.

Familiarity with BMS, home automation, and smart network technologies.

Knowledge of AV systems and architectural considerations.

Please contact David Hilditch at RGB Network for more information on this Senior Electrical Engineer vacancy.
