

Senior Electrical Estimator

[Apply Now](#)

Company: M Group Services

Location: United Kingdom

Category: business-and-financial-operations

About The Role

Morrison Energy Services is currently looking to recruit a **Senior Electrical Estimator** to work within our Renewable Connections business for Clients across the UK.

As a **Senior Electrical Estimator** you will be part of our **Electrical Distribution Business** who are responsible for the Design & Delivery of major renewable connection electrical works as one-off projects and within long term framework agreements **within the non regulated sector**

The Renewable energy sector is a key area of growth for Morrison Energy Services. We are looking to build our existing team to take advantage of the extensive opportunities within the renewable energy sector that will result from not only “business as usual” work activities, but also additional works that will result from the journey to Net Zero.

As the Senior Electrical Estimator your responsibilities will include

Assessment of bid opportunities leading to a bid / no-bid review including assessing key project data and client criteria

Assess and evaluate any project risks and potential problems

Responsible for checking the accuracy and completeness of client’s tender documents

Review tender documentation and determine a project’s technical requirements

Responsible for the overall estimate of project cost based upon client specification and technical requirements

Determining the Electrical BoQ for pricing

Evaluations of options and alternatives

Assist in the technical and estimating element of preparation of tender and quotations from specification and drawings within defined time periods – In conjunction with the Procurement and civil estimating team, liaise with Sub-contractors and supplies to obtain the best available quotations

Evaluation and pricing of options and alternatives

Completion of all company procedure documents and financial information for governance prior to submission of tender

Assist in the preparation of tender submission

Assist in post tender presentations and meetings with the client

Produce formal handover documentation on accepted work. Attend handover meetings where required and explain project scope, estimate, clarifications and assumptions

Support completion of all company procedure documents and financial information

Support review and peer review of all projects as part of the estimating team

Work alongside other members of the team to ensure effective deliver of targets

Skills & Knowledge Requirements

Degree/HNC in Electrical Engineering / C&G Qualification or equivalent

Extensive experience within the renewable energy sector and non-regulated sectors

Experienced Electrical Engineer with a proven track record in providing technical solutions and estimating major project costing for an electrical and civil engineering environment

Knowledge of 400kV, 275kV, 132kV, 66kV and 33kV High Voltage equipment and systems

Extensive knowledge of Battery Energy Storage systems, balance of plant and connections

Extensive knowledge of Solar PV installations, balance of plant and connections

Extensive knowledge of data centre electrical installations and connections

Understanding of National Grid and DNO Standards

Experience estimating for major EPC and framework (schedule of rates) projects

Strong commercial acumen – knowledge of forms of contract

Organised with a high attention to detail

Understanding of the planning and sequencing of construction projects

Effective collaborator

Effective communication skills

IT Literate in MS Office software – word, excel etc

General knowledge of H&S in construction

What's in it for you?

25 days' annual leave plus 8 days' bank holiday

Annual bonus

Pension scheme

Life Assurance

Private health care

Company car/ car allowance and fuel card

Notes/Brief for Recruitment Team: About The Company

M Group Services delivers a range of essential infrastructure services within the water, energy, transport and telecommunications sectors in the UK & Ireland. We have built and maintained relationships with our clients over a number of years and have a strong culture that continuously focuses on safety, operational delivery, efficiency and customer service. We are committed to profitable growth both organically and through acquisitions. M Group Services, a trusted employer to over 10,000 skilled specialists working from 240 locations, operates a divisional structure aligned with its end markets.

At M Group Services we recognise and value the benefits from our workforce diversity. We work hard to build and maintain inclusive environments and develop a culture where our people feel included and valued.
