

Senior Electrical Estimator

[Apply Now](#)

Company: M Group Services

Location: United Kingdom

Category: business-and-financial-operations

About The Role

Morrison Energy Services is currently looking to recruit a **Senior Electrical Estimator** to work within our Electrical Distribution business for Clients across the UK.

As a **Senior Electrical Estimator** you will be part of our **Electrical Distribution Business** who are responsible for the Design & Delivery of major electrical works and both as one-off projects and within long term framework agreements for the regulated electricity Distribution Network Operators (DNOs) .

The DNO sector is a key area of growth for Morrison Energy Services. We are looking to build our existing team to take advantage of the extensive opportunities within the DNO sector within the next price control period (ED2) that will result from not only “business as usual” work activities, but also additional works that will result from the journey to Net Zero.

As the Senior Electrical Estimator your responsibilities will include

Assessment of bid opportunities leading to agreed bid / no-bid review including assessing key projects and client criteria

Assess and evaluate any risks and potential problems

Responsible for checking the accuracy and completeness of client’s tender documents

Evaluations of options and alternatives

Assist in the technical and estimating element of preparation of tender and quotations from specification and drawings within defined time periods – In conjunction with Procurements,

liaise with Sub-contractors and supplies to obtain the best available quotations

Review tender documentation and assess a project technically, and being responsible for the overall estimate of cost based upon client specification and technical requirements

Produce formal handover documentation on accepted work. Attend handover meetings where required and explain project scope, estimate, clarifications and assumptions

Completion of all company procedure documents and financial information

Review and peer review all projects with the estimating team

Post tender presentations with the client

Work alongside other members of the team to ensure effective deliver of targets

Skills & Knowledge Requirements

HNC in Electrical Engineering / C&G Qualification or equivalent

Experience within the DNO sector and non-regulated sectors

Experienced Engineer with a proven track record in providing technical solutions and costing for an electrical and civil engineering environment

Knowledge of HV & LV installations and switchgear

Understanding of DNO G81's and Client Standards

Experience estimating for both framework (schedule of rates) and projects

Strong commercial acumen

Organised with a high attention to detail

Understanding of the planning and sequencing of construction projects

Effective collaborator

Effective communication skills

IT Literate

General knowledge of H&S

What's in it for you?

25 days' annual leave plus 8 days' bank holiday

Annual bonus

Pension scheme

Life Assurance

Private health care

Company car/ car allowance and fuel card

Notes/Brief for Recruitment Team: About The Company

M Group Services delivers a range of essential infrastructure services within the water, energy, transport and telecommunications sectors in the UK & Ireland. We have built and maintained relationships with our clients over a number of years and have a strong culture that continuously focuses on safety, operational delivery, efficiency and customer service. We are committed to profitable growth both organically and through acquisitions. M Group Services, a trusted employer to over 10,000 skilled specialists working from 240 locations, operates a divisional structure aligned with its end markets.

At M Group Services we recognise and value the benefits from our workforce diversity. We work hard to build and maintain inclusive environments and develop a culture where our people feel included and valued.
