

## Senior Embedded Software Engineer

[Apply Now](#)

Company: IC Resources

Location: Greater Bristol Area

Category: other-general

New opportunity in Bristol for a Senior Embedded Software Engineer with 2-10 yrs of embedded low-level development expertise. Super opportunity to get involved with a variety of exciting virtual reality and computer vision projects. I am seeking a capable, enthusiastic Senior Embedded Engineer who is ready to get stuck in and start contributing. The Senior Embedded Software Engineer will have solid embedded skills and some of the following experience: Experience with linux development, especially linux kernel. Experience with NXP, Qcom, Renesas chipsets Experience with video, computer vision, or machine learning applications. Experience with Yocto. Experience with algorithm development - especially in computer vision. Super opportunity a Senior Embedded Software Engineer to be part of a small friendly growing company where you will be able to get involved and make a real difference! Flexible hybrid working based from Bristol. Visa support also available. Salaries £45k to £70k+ plus benefits. Get in touch with Emma Windows at IC Resources
