

Senior Engineer

[Apply Now](#)

Company: Chronos Energy

Location: England

Category: other-general

Chronos Energy is working in partnership with a leading utility infrastructure provider who owns and operates some of the UK's largest heat networks. We are currently looking for a Senior Engineer who will be involved with reviewing detailed design and construction management of district heating and cooling generation and distribution networks. Roles and Responsibilities: Assisting in the evaluating, planning, managing, approving and undertaking plant and network designs for projects. Ensuring all generation plant and distribution network designs meet all operational requirements whilst minimising capital and operational requirements under strict SLA targets for return of design. Working in conjunction with the other Teams, develop site specific energy strategy and coordinate the design of energy centre and district heating and cooling projects. reviewing all design software for the water, heat and cooling design, and implement Standards and Procedures. Receiving and logging all water, heat and cooling design and variation enquiries onto TAS, ensuring there is sufficient information to commence design activities. Skills and Qualifications: Comprehensive knowledge across the Water and Heat Distribution Industry in engineering design and regulatory functions Experience in the use of AUTOCAD/REVITT/ENERGYPRO and knowledge of the implications of BIM. Experience working as a valued member of a design Team within the District Energy sector is essential Project and operational management knowledge and skills. If you are interested please apply
