

Senior Engineer (London) Permanent

[Apply Now](#)

Company: Murray McIntosh

Location: United Kingdom

Category: architecture-and-engineering

Job Title: Senior Engineer

Location: West Ham, London

Salary: £45k to £55k DOE

Hours of work: Full time 45 hrs / week

The Role:

The Senior Engineer is to provide site engineering duties to several projects within the region, including the supervision of trainees and site engineers within the region. The role involves establishing the level and survey control for contracts and setting out detailed works as per the contract drawings, ensuring that checks are made on a regular basis.

Key Responsibilities:

Site engineering

Establish the level and survey control for contracts

Set out detailed works as per the contract drawings ensuring that checks are made on a regular basis

Ensure records regarding health and safety and the work environment are complete, accurate and comply with organisational and legal requirements

Deliver the work safely, without environmental incidents, and to the specified quality without defects

Assist the Site Agent/Sub Agent in developing efficient work methods and techniques,

ensuring the best use of resources and abilities are made

Deputies for the Sub/Site Agent where required

Managing quality

Carry out instrumental checks in accordance with the agreed guidelines and schedule

Complete records of quality audits in accordance with agreed procedures and timescales i.e., at the end of the works

Give feedback to the Site Agent/Sub Agent regarding areas where corrective action needs to be taken

Compile ITPs

Managing resources

Ensure the availability of resources and that they consistently meet the companies and the client's requirements for quality, quantity, and prompt delivery

Deal with any actual or potential problems with resources promptly liaising with the Site Agent where necessary

Ensure records of resources are complete and accurate

Organise and conduct toolbox talks and issue method statements

Develop and maintain positive working relationships between operatives and staff; client and contractor; suppliers and contractors; public and contractors; and subcontractors and contractors

Managing information

Obtain all 'as built' information ensuring that it is accurate and relevant. Record, store and maintain records and correspondence in line with organisational and legal requirements

Key measures & targets:

Produce accurate records, drawing registers, and weekly diaries that will be measured routinely as part of the quality audit process

Key relationships:

Site Teams and Operatives

Clients

Stakeholders

Person Specification:

The successful candidate is likely to meet all the following criteria:

Essential

Previous experience in setting out on civil engineering projects, which should include highways, infrastructure, and reinforced concrete works

Degree/HNC, or equivalent, in civil engineering

CSCS card

SMSTS

Confined space training

Experience using AutoCAD

Ability to manage and deliver a successful project with minimal guidance

Experience in running reports and ensuring accurate record keeping

Effective working both individually or as a team member

Ability to communicate with client representatives, site team and operatives

Ability to challenge designs and resolve problems to a conclusion
