

SENIOR ENGINEER, SUBSEA STRUCTURE AND TIE-IN SPECIALIST

[Apply Now](#)

Company: Aventa

Location: United Kingdom

Category: architecture-and-engineering

Role Definition

The Subsea Structure and Tie-in Specialist is required to support worldwide offshore deep-water projects, providing technical leadership within the Subsea structures discipline.

The resource will be part of the project engineering group based in Basingstoke (UK) and support all the engineering activities related to subsea structures (Manifold, PLET, foundation, Tie-in connectors) design in the different phases of the project, from feasibility to Basic/FEED and along the execution phase for the several new upcoming or ongoing initiatives within the group.

Qualification

Candidate must have experience of Subsea Structure and Tiein equipment design, fabrication and testing (FAT, SIT, SRT).

Significant experience in Subsea Structure and Tie-in equipment installation would be a major advantage for this position as well as past experience as Company/Contractor lead engineer in a EPC contract.

Conditions

Office based + hybrid work up to 60%

Others informations

Start date :ASAP

Duration : 12 months, renewable

Type of contract:Permanent or Contractor

Seniority level Senior Engineer

Type of project : DEEP WATER O&G Floating unit (FPSO, FLNG etc)

Countries United Kingdom

Location : Basingstoke
