

## Senior Java Developer - FinTech Start-Up

[Apply Now](#)

Company: Oliver Bernard

Location: London

Category: computer-and-mathematical

Senior Java Developer - Java, Springboot, Microservices, AWS

My client are an innovative and forward thinking start-up business within the credit and financial solutions space with a platform that is on a mission to empower it's users.

After recently securing a huge injection of funding, they've recently expanded their management team and are therefore now looking to grow their hands-on engineering team. My client are looking for highly skilled, collaborative and hardworking engineers to join the team on the journey to empower the users of my clients platform

Senior Java Developer - Java, Springboot, Microservices, AWS

Tech stack:

Java11/17

Springboot

AWS

Microservices

Docker

Kubernetes

This role is a hybrid role with 3-days a week required in their Central London offices and can pay up to £90k depending on skills and experience. This role can't sponsor unfortunately and you must be based in the UK to be considered.

Senior Java Developer - Java, Springboot, Microservices, AWS
