Company: Life Science People

Location: United Kingdom

Category: other-general

Position: Medical Science Liaison (MSL) Location: United Kingdom (Remote) Job Description: We are seeking a motivated and dynamic individual to join our team as a Medical Science Liaison (MSL). Primary focus of this role is the ability to identify and engage with thought leaders in Pulmonary Hypertension (PH) and Interstitial Lung Disease (ILD) or Neurology therapeutic areas and gathering actionable medical insights. Responsibilities: Serve as a scientific expert on PH, ILD and Neurology Therapeutic Areas and company products, providing accurate and up-to-date information to healthcare professionals. Develop and maintain relationships with key opinion leaders (KOLs), academic researchers, and other stakeholders through scientific exchange and educational initiatives. Present clinical data and scientific information to healthcare professionals through one-on-one meetings, advisory boards, and educational programs. Support clinical trial activities, including site identification, investigator meetings, and protocol education. Gather insights from interactions with healthcare professionals to inform internal teams about market trends, competitor activities, and unmet medical needs. Collaborate with cross-functional teams, including medical affairs, marketing, and clinical development, to support product development and commercialization efforts. Ensure all interactions and communications comply with regulatory requirements and company policies. Provide optimal support to our client's unsolicited requests for Early Access Programs (EAPs), training and ongoing support to participating centres. Qualifications: Advanced degree in a scientific or healthcare-related field (PharmD, MD, PhD, or equivalent). Minimum 4 years experience as a MSL within the pharmaceutical or biotechnology industry essential. Previous Therapeutic Area experience in

Pulmonary Hypertension, Interstitial Lung Diseases, Neuromuscular Disorders is highly desirable. Alternatively, previous experience in Rare Diseases. Knowledge of EFPIA and national codes of conduct guidelines, especially those that apply to Medical Affairs. Understanding of GCP guidelines specially in the scope of Phase II-IV company sponsored interventional trials Understanding of GCP guidelines specially in the scope of RWE generation: Non-interventional trials, Early Access Programs/Named Patient Programs, Investigator Sponsored Research Support Excellent communication and presentation skills, with the ability to convey complex scientific information to diverse audiences. Strong interpersonal skills and the ability to build and maintain relationships with key opinion leaders and stakeholders. Ability to work effectively in cross-functional teams and collaborate with colleagues across various departments. Commitment to ethical conduct, integrity, and compliance with regulatory and industry standards. Availability to travel

How to Apply: Please submit your resume and cover letter outlining your qualifications and interest in the position via LinkedIn or to Pasindu.silva@lifesciencepeople.co.uk Life Science People Ltd. is an equal opportunity employer and values diversity in the workplace. We encourage individuals from all backgrounds to apply.
