Company: Harnham

Location: United Kingdom

Category: business-and-financial-operations

MLOPS ENGINEER REMOTE £70,000 - £90,000 COMPANY: A cutting-edge London-based startup specializing in transforming how financial professionals access and utilise data is seeking an experienced AI Developer/MLOps Engineer with LLM experience to join their team. With a strong focus on AI-driven automation and analytics, this company is redefining financial intelligence, backed by top-tier venture funds and a team of experienced technologists and founders. ROLE: Lead the development of new generative AI features, tackling complex challenges like multi-hop question answering and interaction with symbolic systems. Construct Knowledge Graphs to bolster the product's value proposition. Collaborate closely with colleagues to identify business needs and customize AI solutions accordingly. Enhance AI models and infrastructure for improved performance, scalability, and accuracy. Stay up to date with the latest AI technologies and techniques, driving continuous innovation. REQUIREMENTS: Strong software engineering skills, with a focus on machine learning and AI. Experience deploying foundational Language Models (SLM / LLMs) in production environments. Proficiency in deploying machine learning solutions at scale. Deep understanding of data modelling for search, retrieval, and reranking. Ability to collaborate with various stakeholders, including backend engineers, front-end engineers, and product designers. Additional advantage for experience in ML Ops and deployment across cloud platforms (AWS, GCP, Azure). Practical experience with machine learning techniques for search and retrieval, such as Learning to Rank. Experience building Knowledge Graphs and leveraging GNNs. Master's degree in Computer Science or a related field, or equivalent practical experience NEXT STEPS: If this role looks of interest, please reach

out to Joseph Gregory.
