Senior .NET Developer (£70k + bonus)

[Apply Now](#)

Company: ECOM

Location: Manchester Area

Category: other-general

Great opportunity for a Senior .NET Developer to work remotely for a tech company in Manchester at the beginning of their scale-up. The business has plans to double the size of their engineering department in 2024 so you'd join a newly formed product engineering squad building greenfield, cloud native and event driven systems whilst adopting modern XP practices and DevOps principles. As a Senior .NET Developer, you'd play a key role in shaping their overall approach to software engineering and would be given the opportunity to work across the full stack so you should be a T-shaped engineer happy to get stuck in wherever needed. Skills: .NET Core, TypeScript (Node & React) AWS, Docker, Terraform CI/CD, TDD. The money is good too – up to £70k plus benefits including annual bonus and hybrid working with an office in Manchester city centre. If you're interested in this opportunity and would like to know more, please apply through this advert and I will contact you ASAP.
