

Senior Oracle Database Administrator

[Apply Now](#)

Company: Zebra People

Location: England

Category: other-general

Role: Senior Oracle DBA Duration of role: 1 year contract Location: National Day rate: £700 (INSIDE IR35) Paragraph about team/project the person is joining You'd be joining a team that is an important part of a complex government department that ensures those with the most need receive access. These services are delivered from a large estate of Oracle-based products – not just databases, but Enterprise Resource Planners (E-Business Suite), identity and access management (Oracle IAM Suite), and many other Oracle products, including over 20 different production Oracle DBs (and many more in other environments). On top of all this, the entire estate is hosted in AWS, with a mixture of EC2 and RDS. We need talent to join our Application Operations team, alongside other DBAs and Oracle professionals, to help us manage this estate, proactively keep it operational, and ultimately modernise our services (including migration, building new environments, patching, and upgrading). Skills & experience required bullet points ● Oracle EBS (E-Business Suite) 12.1 & 11.5 (with multi-node environment and parallel concurrent processing and load balancing) ● Oracle DB 10,12,19c ● Database Administrator (DBA) ● Patching and Upgrade Management ● Capacity Planning (Resource Management) ● AWS ● Access Gate and Web Gate configuration for EBS integration to Oracle Access Manager (OAM)
