

Senior Planner - Utilities Programme

[Apply Now](#)

Company: JMG Solutions Ltd

Location: London Area

Category: other-general

Are you an experienced planner with a proven track record in project control and stakeholder management? Are you ready to take on a leadership role in a dynamic team, driving success in London's utilities programme and other key projects across the UK? If the answer is yes, we would love to hear from you! Who you'll be working for: A leading contracting company at the forefront of delivering excellence in project management and development. With a strong focus on innovation and customer satisfaction, they are committed to driving success in their utilities programme and other key projects across the UK.

Role Overview: As a Senior Planner, you will play a pivotal role in managing all aspects of their utilities programme and other key projects. Reporting to the UK Planning Lead, you will lead a team of planners and provide mentorship and guidance to junior members. With plenty of growth potential, this role offers the opportunity to evolve into a management position for the right candidate.

Responsibilities: Manage project control activities, including live updates, impacted programmes, delays, and early warnings Report updates to clients, demonstrating proven client management exposure Provide internal reporting to heads of departments and board members Build close relationships with Quantity Surveyors, Project Managers, and Directors Strategize the critical path of works to float activities across projects without impact Utilize knowledge of P6 and NEC Contracts to streamline project operations

Day-to-Day Duties: Oversee project control activities, ensuring alignment with project objectives and timelines Lead client meetings and presentations, conveying project updates and addressing concerns Collaborate with internal teams to optimize project performance and mitigate risks Mentor junior planners, offering guidance and support in

their professional developmentIdentify opportunities for process improvement and implement solutions to enhance project efficiencyCandidate Requirements:Proven planning experience in project management or related fieldAbility to thrive under pressure and effectively manage stakeholdersStrong team player with excellent communication and interpersonal skillsOnsite experience in project management, preferably including large residential projectsProficiency in project management software such as P6Familiarity with NEC Contracts is highly desirableSalary: Up to £75k, commensurate with experience Benefits: Car allowance in addition to standard UK benefits
