Category: architecture-and-engineering

Role: Senior P6 Planning Engineer

Salary: £70,000k - £80,000 pa Depending on Experience

Location: Bristol(Hybrid working)

Are you looking for your next Senior P6 Planner role with a market leading global EPC?

This is an opportunity to work on major programmes in the renewable energy sector , particularly offshore wind

As the senior planner you'll manage and lead all activities related to project planning and accountable for managing the overall Master Control Schedule, collation and reporting of progress against this Control Schedule.

Key Responsibilities:

Preparing and maintaining cost/ resource loaded schedules in P6

Schedule development and integration.

Milestone Management

Progress reporting and carrying out earned value analysis

Additionally, you shall have:

A proven track record of delivering projects to time, cost quality standards across all stages of

project lifecycle

Experience of working on major projects within Rail, Airport, Highways, Utilities or Water sectors

Be a proficient user of Primavera P6

To succeed, you must be driven with focus on high quality, delivery and stakeholder management.

My client is a leader within the project controls field. You will learn from the best and quickly develop your potential on a major project. As a result, there are excellent opportunities for rapid career progression.
