

Senior/Principal Geotechnical Engineer

[Apply Now](#)

Company: Calibre Search

Location: United Kingdom

Category: architecture-and-engineering

Description

A Senior/Principal Geotechnical Engineer position has come available in the Crawley area to help delivery of extremely complicated and high value coastal, flood and water schemes incorporating transportation, development and infrastructure.

As a Senior/Principal Geotechnical Engineer, you will be situated within a talented ground engineering design team working in collaboration with the wider civil and structural engineers to deliver a range of D&B projects. Recent examples include complicated coastal developments, cliff stabilisation, cliff analysis and detailed design, huge embankments, retaining walls and sheet piles etc.

You will come in as a Senior/Principal Geotechnical Engineer and sit within the southern Geotechnical team helping with all aspects of technical reporting, conceptual to detailed design, construction supervision, project management and team development.

Design capabilities but not limited to surround all aspects of foundations, piles, retaining walls, temp works, embankments, slopes, micro tunnels etc. The use of all geotechnical software's including FE.

Senior/Principal Geotechnical Engineer Specification:

Degree educated in Civil Engineering or Geology but with a design background.

Chartered or approaching chartership

Extensive geotechnical detailed design experience within the UK.

Ability to write all Geotechnical related reports.

Ideally experience within the water industry but not essential.

If you would like to know more on this role, please contact Cory Taylor at Calibre Search Manchester.

Calibre Search promote equality in the workplace and we welcome applications from all suitably skilled or qualified candidates regardless of their sex, race, disability, religion/beliefs, sexual orientation or age. We act as both an employment agency and employment business.
