Senior Process Analyst - 39528

Rate: £31.26/hr Umbrella (inside IR35)

Location: Solihull and Gaydon (hybrid)

24 month initial contract

As a Senior Process Analyst within the Supply Chain Operations Development team, you will be leading the Operations & Logistics teams through business process improvement, technology, lean methodology and the use of digital tools.

In your first few weeks in this Senior Process Analyst role, you can expect to:

Delivering products and services that drive competitive advantage and efficiency by reducing costs, improving delivery performance, creating value and driving profitable growth for the teams.

Leading the business improvement projects to support the hyper-competitive roadmap and 5 year plan supporting Logistics Operations strategy.

Design and implementation of new processes, tools and techniques using data to deliver business improvements and create value, including the project management of significant

and complex change programmes across the Operations & Logistics Team working with a diverse range of stakeholders.

Manage this technology-enabled change, drawing on your Supply Chain & Logistics domain knowledge and data & analytics expertise.

A Customer First mindset is paramount, and you will always ensure that the products you deliver are tailored to the needs of your stakeholders.

Essential Skills, Knowledge and Experience

Experience working as a Business Process Analyst / Process Engineer in the Supply Chain / Logistics sector

Understand automotive or other supply chains and material flow principles

Experience in use of lean and agile business improvement techniques

Experience in capturing and publishing business processes

Able to conduct detailed business process mapping / analysis and identify improvement opportunities, supported by data

Track record of performing structured analysis of data and presenting outcomes to both technical and non-technical audiences

Experience in the use of Data and Analytics tools and processes and confident working with disparate data sources (structured and unstructured)

Strong across the Office 365 technology stack (Word, PowerPoint, Excel)

Excellent written and verbal communication skills

Experience of dealing with a fast-paced environment will mean you are comfortable challenging with your influencing and engagement skills

A passion for automotive and supply chain

An analytical mind set with the ability to multitask
