

Senior Product Designer

[Apply Now](#)

Company: TravelPerk

Location: United Kingdom

Category: other-general

Role

We aim to create a business tool that feels just like a consumer one This is why we are expanding our design team and seeking a Senior Product Designer to join us If youre ready to take off with us keep reading

In TravelPerk we work in squads which are small autonomous teams made up of fullstack engineers a Product Manager and a Product Designer As a Senior Product Designer you will be expected to own design within your squad while also contributing to the wider Design team and Product functions within TravelPerk Within a squad of the Manage Tribe youll be responsible for defining the best experience for our customers during the postbooking phase of their journey This includes things such as helping them change their flight streamlining their hotel checkins or providing efficient communication channels with our customer support team to address any issues

What will my day look like?

Within your squad we require that you are confident in the following:

A solid grasp of User Experience and Visual Design fundamentals

Developing a partnership with your Product Manager to fully understand customer needs and business value challenging each other to raise the bar for your product area

Working with our inhouse UX Research team to coordinate user studies to better understand our customers problems and being able to run your own research projects endtoend when necessary

Working with our data team to investigate various data sources to uncover relevant quantitative insights

Working with our inhouse Content Design team to define the best flows and messaging for the features you are building

Ideating quickly and effectively with your squad favouring communication and collaboration over pingponging via tools

Partnering with your engineering peers to understand technical constraints and opportunities through a basic understanding of web technologies HTML5 CSS JS APIs allowing you to communicate ideas effectively with engineers and fellow designers

Complying with Suitcase our Design system and contributing to its improvements

Continuously optimizing the design process in your squad and across the wider team

Testing and optimizing lowhigh fidelity prototypes with key stakeholders and cu

What skills are required? 5 years working for a digital productExperience working with Sketch Figma and remote whiteboard tools like FigJam MiroSolid

communication skills verbal and written You are comfortable presenting ideas to multiple stakeholders and articulately defending design decisionsAbility to influence product roadmaps working alongside Product Managers and EngineersAdvocating for Suitcase our Design SystemRegular interaction with customers and prospects to understand the problem spaceA positive and proactive team playerEnglish

language skills to a professional level both writing and speaking Why Youll Love Our Team We are a team of 34 talented Product Designers Content Designers UX

Researchers and Brand Designers We like to think of ourselves as highachievers goaloriented and eager to learn and grow We foster efficiency through autonomy and creativity through collaborationWorking in the Product Design team will

ensure highquality design and strategic impact on the productIn the Product Design team you will find a strong culture of ownership impactovereffect and lending support

to each other there are no egos and transparency is highly valued We are a heterogeneous team with multiple nationalities and backgrounds pushing for getting better having fun and always asking why of course
