

Senior Product Security Engineer

[Apply Now](#)

Company: Iceberg Cyber Security

Location: England

Category: other-general

Are you leaving the forces or have an interest in working within a Global British Defense organization? I have an exciting opportunity for you to provide advice on product security, encompassing both cyber and physical aspects, and to identify potential risks. This role involves IT and OT security, offering the chance to gain experience in OT security frameworks if you're not already familiar with them. In this role you will be identifying risks to products and providing guidance on how to enhance and align them with industry frameworks such as ISO 27001, NIST, and JSP 440 and making sure the risks have been mitigated effectively. My client has a huge training budget for this team and utilizes this to up-skill and train their staff offering a clear ladder up the hierarchy into senior/ lead positions. Due to the sensitive nature of the work, Security Clearance (SC) is essential, making this position exclusively available to UK nationals. With Multiple centers on offer across the UK (Brough, Filton, Weymouth, Frimley, Portsmouth, Barrow-In-Furness) With sites located throughout the UK, the role entails three days onsite and two days remote work. Additional Information: Base: £40,000 - £46,000 Double payed overtime Huge training budget The interview process consists of just one stage, offering the possibility of securing a new job as soon as next week. Who's ready for a new challenge? If this is you, please don't hesitate to reach out or point me in the right direction of someone who fits the bill!
