

## Senior Project Manager

[Apply Now](#)

Company: Carrington Recruitment Solution

Location: United Kingdom

Category: other-general

Senior Project Manager, SDLC, Application Development, Software Development, Stakeholder Manager, Prince 2, Fully Remote

Senior Project Manager required to work for a Professional Services company based in Central London. However, due to Covid-19, this can be a remote role. There may be the odd bit of travel to the Netherlands and the United States but otherwise the role is fully remote.

We ideally need someone from a Professional Services background (or even someone from Banking / Financial Services, for instance) who has extensive Project Management and Stakeholder Management experience.

This individual MUST have delivered projects related to either Application Development or Software Development (SDLC) in the past.

Experience required:

- 5+ years of project management experience across a number of different technologies, demonstrating detailed knowledge of processes and people management.
- Demonstrated significant experience in project management and related project processes, project methodologies (PMBOK, PRINCE2, Agile, Lead/Six Sigma), project governance and stakeholder management.
- Tertiary qualifications desirable (e.g., university IT degree, university business degree)
- Technical qualifications in a Project Management discipline (e.g., PMBOK, PMI CAPM/PMP or PRINCE2, Agile) desirable.
- Fundamental knowledge of the ITIL framework and/or service management approaches. ITIL certification preferred.

This is a great opportunity and salary is dependent upon experience.
