

Senior Project Manager

[Apply Now](#)

Company: RSK Group

Location: United Kingdom

Category: other-general

About the Company

██████████ work for one of Ireland's most progressive and ambitious engineering and environmental consultancies. Sustainability is a core value of our work, so if you want to advance your career in a socially responsible company working towards a sustainable planet then come join us.

We are creative problem solvers who deliver design solutions for infrastructure projects focused in the water and wastewater sectors but also in transportation, civil & structural engineering, flood protection and renewables.

With our Headquarters based in Ireland we also work in the UK, Europe, Middle East, and Africa. We are part of the RSK Group, an amalgamation of over 200 companies with more than 15,000 employees working in the area of water, transportation, and environmental remediation with sustainability at its heart. Being part of a larger group provides a global network of opportunities whilst still retaining the company's own brand and autonomy.

About the role

██████████ is seeking a Senior Project Manager to become a pivotal member of our team during a period of significant growth for our Company. The Senior Project Manager will be instrumental in overseeing the delivery of a diverse portfolio of projects in UK market within the Wastewater and Water sectors.

Core role requirements:

██████████, being an integral part of a larger team is crucial for success in this position. Your responsibilities will encompass:

Overseeing comprehensive project planning, including the design and implementation of wastewater networks, pump stations, and wastewater treatment plants.

Facilitating coordination among mechanical, civil, structural, and electrical aspects of water and wastewater projects to ensure a cohesive system design.

Engaging with equipment suppliers and manufacturers for design assistance and selection of suitable equipment/components, preferably in the UK.

Managing communications with all project stakeholders, including clients, contractors, and regulatory bodies, to ensure seamless project execution.

Preparing and managing the Project Design Programme and reporting of same to the client

Managing the contractual and commercial aspects of the project

Providing leadership, mentorship, and oversight to the design team, fostering a collaborative and productive environment.

Ensuring the quality of work aligns with design specifications and project requirements, readying them for commissioning.

Overseeing the preparation and execution of commissioning documentation and processes as needed.

Promoting a culture of continuous improvement within the team and across project processes.

Offering technical guidance to junior engineers and staff, enhancing team competence and project outcomes.

This role demands a proactive, leadership-focused individual with a commitment to excellence in project management and team development.

Qualifications and Experience:

Possess a minimum of 10 years of post-graduate experience, with a preference for those who have led Wastewater and/or Water projects from their initial concept through to

their successful completion in the UK.

Demonstrated expertise in the design and/or commissioning of wastewater treatment facilities.

A degree in Mechanical or Civil Engineering is preferred, particularly with a specialization or interest in Wastewater Engineering. Exceptional candidates from other engineering backgrounds such as Process, Chemical or Electrical, who demonstrate a keen ability in the wastewater sector, will also be considered.

Proven project management abilities, highlighted by the successful management of several projects in tandem.

A thorough understanding of the industry's standards and regulatory requirements.

Advanced skills in technical writing.

Proficiency in Microsoft Office applications, including Excel, Word, and PowerPoint.

Exceptional communication abilities and the capability to collaborate effectively within diverse, multi-disciplinary, and multi-cultural teams.

Excellent organizational skills, including the aptitude for prioritizing tasks, juggling multiple responsibilities simultaneously, and adhering to strict deadlines.

An adaptable, solution-focused approach with a "Can Do" attitude.

A self-motivated individual who sets high standards for themselves.

A desire to contribute to a company with a meaningful mission, aiming to enhance the wellbeing of communities and improve the quality of life for individuals.
