

## Senior R&D Chemist

[Apply Now](#)

Company: Rowland Talent Solutions limited

Location: Oxford

Category: other-general

We currently have an excellent opportunity for a Senior R&D Chemist to join an innovative materials science company in Oxfordshire.

As a Senior Chemist you will lead development projects to further develop the company's technology and applications.

Responsibilities include:

Manage research and development projects.

Design and run laboratory experimental work.

Suggest new research projects and applications.

Ideal candidates will have:

A degree or PhD in Chemistry and have experience in the chemical or materials/ coatings science industry. You will have experience in organic chemistry, synthetic chemistry and/or formulation development.

Experience in project management along with mechanical testing, thermal analysis and spectroscopy experience is highly desirable.

To apply please send your CV to Peter at Rowland Talent Solutions.

Please note the company is unable to sponsor visas for candidates without eligibility to work in the UK

Key words: Chemist, Chemistry, Materials, SEM, FTIR, Research, Development, Technologist
