

Senior Revit Technician

[Apply Now](#)

Company: Strata Consulting

Location: Hemel Hempstead

Category: other-general

Do you have a creative mind that wants to change the scene? Are you an intelligent and talented technician who is eager to work on a wide variety of projects?

Our client – who have multiple of offices across the UK – are currently looking for a talented Senior Structural Revit Technician to join their team based in Hemel Hempstead. The role would suit an experienced BIM Technician who wishes to take the next step in their career by taking a lead role in the development of our BIM teams while remaining actively engaged in project delivery. Do you have what it takes?

What's on offer?

A change to lead a team of technicians, helping deliver projects on time..

The opportunity to further your development with TIStructE

Benefits include: Flexible working
Long service awards including additional days off and cash awards
Interest-free loan for annual travel season ticket
Enhanced Maternity and Paternity pay
Free on-site parking
Regular social events organised and funded by the company throughout the year

What you will need to succeed:

A proven track record in demonstrating a strong understanding of the wider engineering context of designs, drawings, and 3D models, while having awareness of structural engineering and building detailing.

HNC/HND in civil/structural engineering or equivalent would be an advantage.

Proficient in CAD and the use of AutoCAD, excellent understanding of the application of (BIM) and the use of Revit in the production of buildings and structural designs.

Experience of mentoring/training Junior Technicians
