Senior Risk Modelling Analyst

£80, | West Midlands | Permanent

InterQuest

Posted 1 hour ago

This is an exciting opportunity with an established financial institution in the West Midlands who are looking to bring in a Senior Risk Modelling Analyst who will have the opportunity to get hands-on working with the team and taking ownership of the model development cycle.

This is a greenfield opportunity to establish yourself within a business that will offer the chance to lead the credit risk model development, but also the opportunity for wider analytical modelling within the company. You will have interaction with multiple senior stakeholders and C-Suite on a weekly basis and manage

They are looking for an individual who has

Experience developing models in SAS

Degree in mathematics, statistics, or a similar quantitative background

Knowledge of the IFRS 9 regulations and PD, LGD, and EAD models

Someone with the drive to get hands-on building models

High level of attention to detail enabling the production of analyses with a consistently high degree of accuracy

If you have relevant experience and looking for the next step in your career as a Senior Risk

Modelling Analyst, apply now!
