Senior SAP Technical Architect

NTT DATA Business Solutions -

NTT DATA Business Solutions Group is part of the NTT DATA Corporate Group a top global IT services provider, headquartered in Tokyo, operating in more than countries.

We combine a global reach with local intimacy to provide premier professional SAP services from deep industry expertise consulting to applied innovations in digital, cloud, automation, and system development to business IT outsourcing.

As a global SAP Platinum Partner, NTT DATA Business Solutions Group leverages its global expertise to deliver quality outcomes whether you are a multi-national or operate in a single country. With over 9, SAP experts across countries, we have the capability and reach to help you solve real problems and seize the next opportunity for growth around your SAP strategy and operations.

Our global award winning SAP practice, differentiated by innovation is the undisputed leader in SAP S/4HANA. With about SAP HANA clients and more than SAP S/4HANA clients.

Our clients trust our deep experience and proven approaches - all around the world.

POSITION DESCRIPTION OVERVIEW

The NTT Data Business Solutions senior SAP Basis Architect leads consulting and client activity by both designing and implementing SAP technical solutions. They will act as a specialist who provides subject matter expertise with regard to infrastructure, applications, databases, platform variants and SAP Cloud technologies during the full project implementation

lifecycle. The jobholder is focused on delivering sales revenue through generating personal and company utilisation. They are recognised as a leader within the consulting group by developing and mentoring others and innovating NTT Data Business Solutions propositions.

RESPONSIBILITIES AND EXPECTATIONS

Delivers SAP Technical consultancy supporting functional consultants and client staff within NTT Data Business Solutions SAP projects.

Pro-actively takes responsibility for assigned tasks and projects for quality, productivity and resources.

Prepares, delivers and leads SAP technical workshops to assess and scope client requirements.

Architects and sizes SAP Solutions across multiple platform variants and SAP Technologies - this will include designing SAP solutions in both on premise and Cloud scenarios.

Act as Technical Stream lead, planning and orchestrating required activities aligned to the Technical Architecture, through close supervision of Technical delivery resources.

Supports Business Development leading the creation of estimates, proposals and Statements of Work

Adds value to the NTT Data Business Solutions offer by generating and passing on leads / project change requests to the relevant sales team.

Meets personal utilisation target by delivering high quality professional solutions to specification that drive value and business benefit.

Delivers customer service standards that exceed expectations ensuring "Trusted Advisor Status" and a growing portfolio of references.

Supports colleagues to ensure they are developed to attain their professional potential and act as a role model for employee development in sharing best practice knowledge and skills.

PERSONAL PROFILE

SAP BASIS and SAP HANA certified.

Ideally, AWS or MS Azure certified.

Ideally, demonstrable experience or certification for SAP RISE PCE in the role of Partner Cloud Architect

Experience in SAP technical sizing & design, installation, upgrade, migration and day-to-day administration across multiple OS and Database variants including SAP HANA.

Experience of SAP Technical Design for Hyperscaler Hosting - specifically MS Azure and AWS. Ability to articulate clearly SAP design uniqueness in all environments.

Experience in SAP Technical Pre-Sales including creation of technical proposals and constructing estimates for SAP Technical work.

Can demonstrate a clear understanding of BASIS specific compatibility issues and the benefits of the various design methodologies and BASIS orientated environments.

Assertive and articulate with the ability to sustain, develop and grow existing customer relationships and build new ones.

Possess strong personal integrity and gravitas with the ability to manage challenging situations and hold your own at senior stakeholder levels.

Impressive presentation and client facing skills with the ability to understand client requirements and advise them on the most appropriate SAP technology solutions.

Strong team player, self-motivated and meticulous, strong analytic and technical trouble shooting skills and able to work under pressure and tight schedules.

GENERAL

Career opportunities exist along multiple route maps from people and leadership, products and expertise and project management. Which route you take is up to you and we are on hand to provide guidance and support. Join us to start the journey that is your career path.

The jobholder is expected to follow relevant policies, procedures and work instructions, and report to the appropriate superior if objectives cannot be met or a problem occurs, the resolution of which is outside the scope of his/her authority.

The jobholder is empowered with the necessary authority to make decisions appropriate to

the execution of the responsibilities and tasks outlined. The above Job Description does not limit the employee in executing his job in concurrence with his main area of responsibility or other relevant jobs that they may be required to do.

NTT DATA is an equal opportunities employer that supports applicants from all backgrounds. Please advise us should you require special arrangements for the interview process.

You must be eligible to work in the UK and prepared to undergo high level security clearance

We encourage you to consider becoming a part of our dynamic and innovative organization. Thank you for your interest, and we look forward to hearing from you soon!

We transform. SAP® solutions into Value
