Senior Site Chemist

St, Helens, Merseyside

£-Attractive salary plus benefits

WasteRecruit have been retained by a leading environmental services provider to recruit a Senior Site Chemist. Based at the company's oil/water treatment site and waste transfer station in the North West, your main duties will include:

- * Ensuring site permit and discharge consent conditions regarding waste inputs/outputs and treatment methods are adhered to.
- * Ensuring site H&S and environmental systems are adhered to.
- * Ensuring that all records are accurate and kept up to date.
- * Ensuring effective operation of a stock system for waste stored on site.
- * Ensuring effective operation of a system for the maintenance of the laboratory and plant equipment is in accordance with the manufacturer guidelines and relevant legislation.

- * Working closely with site operations/customer services and sales.
- * Maintaining and updating local plant and laboratory procedures.
- * Maintaining and updating plant and laboratory risk assessments.
- * Being “profit responsible” which may include keeping and providing information on waste treatment costs, operational costs etc.
- * Ensuring all equipment is calibrated as per company standards.
- * Ensuring housekeeping standards of laboratory and plant are kept to a high standard.
- * Supervising any allocated employees ensuring they perform their duties efficiently and effectively.

Candidate requirements:

- * Educated to degree level in chemistry or related discipline.
- * Numerate and computer literate.
- * Good knowledge of H&S legislation including risk & COSSH Assessments.
- * Good knowledge of Environmental legislation including environmental auditing / monitoring of site processes.
- * Ideally possess relevant CoTC or working towards this qualification.
- * Working knowledge of waste industry.
- * Team player.

* Good communication skills.

There is the potential for this role to quickly transition into site management for the right candidate.
