Senior Site Chemist

Hazardous Waste

Wallingford - Oxford

Competitive Salary

Introduction

We are currently recruiting for a Senior Site Chemist to join one of the industry leaders in hazardous waste management solutions across the UK. Working as a Senior Site Chemist, you will be responsible for supporting a team on-site in the acceptance and analysis of hazardous waste samples on-site to ensure safe and compliant waste is processed at all times. This will also be supporting with the day-to-day operations of the transfer station.

Roles & Responsibilities

Reporting to the Transfer Station Manager, you will be responsible for:

Assist with the hands-on operation of the hazardous waste transfer station, ensuring materials coming onto and off site are consistently safe and compliant to site permits and environmental regulations.

Supporting a team of on-site chemists across their daily operations, allocating resources appropriately and providing support when needed.

Assist with compiling lists of wastes to be transferred off site to third party disposal points.

Liaising with other staff to ensure correct routing of wastes.

Assist with non- conformance procedures and sample processing within the site laboratory for incoming waste streams.

Providing services to customers to enable wastes to be assessed, priced and collected

Utilise appropriate systems to manage non- compliances.

Use of FLT/Dump Truck and other mobile plant as required

Assist with the daily/weekly plan for the operational areas and laboratory, adapt to the unplanned and unexpected to deliver targets, KPI's and other requirements.

Ensure house-keeping requirements and continuous improvement programmes are supported both directly and through the plant team.

Partake in improvement of process, contributing to micro project development.

Undertake area administration activity including Chemist Check sheets, process sheets, stock sheets, production records, etc.

Other duties as required.

Skills & Qualifications

We are looking for someone with the following:

An appropriate chemistry qualification to HNC level or equivalent.

Knowledge of the waste, hazardous waste or industrial chemistry sector is essential.

A strong background working in a similar hands-on chemist role within an industrial environment.

Previous experience working in a senior/ supervisory capacity with a background supporting more junior members of the team.

What's on Offer

Competitive Salary dependant on experience

Opportunity to progress towards senior/ management roles

Training and development opportunities within the waste/ chemical industry.

How to apply?

To apply for this opportunity simply send a copy of your up-to-date CV and covering letter to or call directly on (phone number removed).

INDNUC

Astute Technical Recruitment Limited are acting as an employment agency in relation to this vacancy. We do not discriminate on the grounds of age, race, gender, disability, creed or sexual orientation and comply with all relevant UK legislation. We encourage applications from individuals from all backgrounds but candidates must be able to demonstrate their ability to work in the UK. Astute is also committed to the government's Disability Confident Employer initiative. We endeavour to get back to everyone, however, if you have not heard anything after 7 days, please consider your application unsuccessful.
