Senior SOC Engineer

Hybrid – 1 day a week in Doncaster office

Up to £60,000

Are you a seasoned Security Engineer with a knack for Microsoft Sentinel deployments?

Do you excel in crafting and optimizing security solutions?

If so, your expertise could be the perfect fit for this role. This is your chance to join an award-winning Cyber Security company. Join Digital XRAID's rapidly expanding team, where you can make significant impact on Microsoft Sentinel deployment projects.

Key Responsibilities

Collaborate with cross-functional teams to design and implement Microsoft Sentinel deployments tailored to meet client's specific needs

Configure and optimize Microsoft Sentinel to enhance security monitoring and threat detection capabilities

Provide technical expertise and support through the entire deployment lifecycle, including planning, testing, deployment, and post-deployment activities.

Conduct regular assessments and audits to ensure the effectiveness and efficiency of the deployed Microsoft Sentinel solution

Troubleshoot and resolve technical issues related to Microsoft Sentinel deployments

Requirements

2+ years in a similar role, preferably in a SOC and/or consultancy environment

Proven experience in designing, implementing, and managing the Microsoft Tech Stack (Sentinel, Defender etc.)

In depth knowledge of Azure cloud services

Strong understanding of security operations and incident response methodologies

Experience with SIEM systems

Certifications: AZ-500 / SC-200

They are offering up to £60,000 for this opportunity depending on experience - interviews are happening now so get in touch!
