

Senior Software Engineer - Flutter

[Apply Now](#)

Company: IO Global

Location: United Kingdom

Category: computer-and-mathematical

Summary

Are you a Flutter Developer looking to make a significant impact in the world of web3 technology? Catalyst, a critical project within the Cardano ecosystem, is seeking a skilled Flutter Engineer to join our innovative team. This is a unique opportunity to work on cutting-edge applications in a rapidly evolving space. As a Flutter Engineer at Catalyst, you'll have the chance to develop cross-platform applications crucial in bringing decentralized solutions to a global audience. You'll work alongside a team of experts in web3 technology, contributing directly to projects that aim to make a tangible difference in how digital transactions and interactions are conducted.

At Catalyst, we value creativity, collaboration, and a commitment to excellence. If you're ready to push boundaries and contribute to the future of decentralized applications, we invite you to apply and help shape the next wave of blockchain innovation. Join us at Catalyst and participate in Cardano's mission to create a more secure, transparent, and fair digital world.

Duties

Follow agile software development practices

Work with teams across multiple time zones

Work independently on software development tasks

Be proactive and require minimal supervision or mentoring to complete tasks

Review specifications produced by architects and formal methods specialists

Contribute to the design of algorithms

Write clean, straightforward, efficient code that satisfies previously agreed acceptance criteria and specifications

Commit often and submit small pull requests frequently

Cover your code with unit, property, and integration tests when applicable

Review the pull requests of your teammates

Fix bugs in your code and legacy code from others

Be available for emergency fixing of severity issues on deployed products

Integrate software components and third-party libraries

Verify and deploy programs and systems

Troubleshoot, debug, and upgrade existing software

Write documentation for the code

Write technical user manuals

Be knowledgeable of distributed and concurrent computation

Be knowledgeable of the basics of cryptography is a plus

Requirements

Key Competencies

- 1 . Write idiomatic code that satisfies the acceptance criteria of a given task
- 2 . Write tests (unit tests, property tests) that provide sufficient and non-superfluous efficient code coverage.
- 3 . Document code and APIs concisely and unambiguously
- 4 . Break down tasks into sub-tasks that are completable in a short amount of time and

report completion as required by managers

- 5 . Pragmatically adhere to software engineering principles (modularity, incremental development, no premature optimization, no feature creep, no speculative generality, etc.)

Specialist Skills

At least two years of commercial experience in Flutter development using Dart

Good knowledge of one of the following languages: Swift, Kotlin, Java, Objective-C, or JS/TS.

Solid understanding of the best mobile and web development practices and architecture: SOLID, MVVM, State Management, Offline, etc.

Experienced with developing user-facing UX/UI app flows

Experienced in delivering a mobile application to the Apple App Store or Google Play Store

Contributions to open-source Dart/Flutter projects that you can share are a plus

Education / Experience

At least five years of professional experience in fronted and/or mobile app development and/or Web like Flutter, iOS, Android, React, or Vue.

High sense of responsibility to run software on a scale

Strong passion for top-notch software development and delivery

Practical experience with Agile software development methods

Knowledge of functional and object-oriented programming paradigms

Experience working with Git and CI/CD

A degree in Computer Science is desirable but not essential

Benefits

Flexible schedule

Remote work

Laptop reimbursement

New starter package to buy hardware essentials (headphones, monitor, etc)

Learning & Development opportunities

Competitive PTO

Medical Benefits

At IOG, we value diversity and always treat all employees and job applicants based on merit, qualifications, competence, and talent. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.
